

Grant Evaluation

- The Parish Council likes to hear how community groups have used the money awarded to them
- As the money awarded is public money, we also need to make sure that the money has been spent appropriately and as agreed

Name of Organisation	Cartworth Moor Cricket Club (CMCC)
Amount of award	£ 3038
Purpose for which the grant was awarded	The main area of the pavilion used as the tea room and catering facility has ageing thin plywood ceilings which are beginning to sag. To improve the appearance and ambience of the room we are proposing to refix a tongue and groove UPVC panel system, and at the same time replace the old strip lights with a more efficient and environmentally friendly LED lights.

The Story of Your Project

- *Tell us what you did with the money awarded to you*
- *Attach a few photos*

A new tongued and grooved ceiling panel system was fitted over the old plywood, levelling the ceiling in the tearoom, mens and ladies toilets and the kitchen. Five old striplights were replaced with LED spotlights (club funded) to improve the energy efficiencies.

The Story of Your Project contd.

What you achieved

What were the benefits of your project?	The overall ambience of the tearoom and associated areas is vastly improved and will enable further improvements to décor and layout to proceed.
Who benefited from the project?	CMCC draws cricket players and teams from the Holme Valley and beyond and provides facilities for locally based junior football teams and families. We supply changing facilities for Cartworth Moor and Holmfirth Town Football Clubs. The Easypave Cricket Club also

	use the ground for their Evening League Fixtures, and Holmfirth Harriers use the facilities three times a year for their fell race events.
How many people benefited?	<p>CMCC have a playing pool of approximately 30 players, predominantly in the 18 – 50 age group. Match days see around 40 people participating and watching. We have a diverse multi-cultural group of players, supporters, families, and others who use the facilities and who mainly live and/or work locally.</p> <p>The Holmfirth Town Junior Football teams using the ground are all Under 9 and can number 80 together with more senior coaches and parents. It is used for training during the summer months as well as for games during the football season. Cartworth Moor and Holmfirth Town Football Clubs would predominantly fall into the 16 – 40 age group, and number around 30 people on match days.</p> <p>Easypave CC would fall into the 20 – 60 age group, around 30 people per game.</p> <p>Holmfirth Harriers also use the club facilities three times a year for prestigious race events, spanning all age groups, with 300 runners in the largest event.</p>
Was the project inclusive? How were marginalised groups (elderly, disabled, young people etc) able to participate?	The improvements to the tea room and associated facilities benefits all users of the cricket club facilities.
Reflecting on climate change, did the project address any aspects of the climate emergency? How?	Replacement of old and inefficient fluorescent tube striplighting with modern and less energy consuming LED spotlights.
Did you achieve what you were trying to do?	Yes – pictures attached

Finance and Expenditure

We ask groups to retain their receipts and invoices, and to keep a record of what they've spent for auditing purposes

Grant awarded £ 3038

Date	Description of expenditure	Amount
14/12/2023	Board ceiling in clubhouse, kitchen and toilets with UPVC boards, including boxing in of meter cupboards	£ 3038
		£
		£
	Total expenditure	£ 3038
	Amount of grant remaining (if any)	£ 0

Any amount of the award unspent may have to be returned to the Parish Council

Cartworth Moor Cricket Club Improvements Report February 2024

Following the grant made by Holme Valley Parish Council from the Community Assets Support Committee Fund, the club is pleased to report the conclusion of this stage of the pavilion improvements.

Our cricket pavilion is a prefabricated concrete structure purchased second hand some 20 years ago and is now over 40 years old. It was resited at Cartworth by the club volunteers when money was tight and material savings were made where practical. The main area of the pavilion used as the tea room and catering facility had ageing thin plywood ceilings which were beginning to sag. To improve the appearance and ambience of the room we applied for funds to refix a tongue and groove UPVC panel system, and at the same time replace the old strip lights with a more efficient and environmentally friendly LED lights.

The existing ceiling and exposed electrics prior to the work. Six old fluorescent striplights have been removed to be replaced with more environmentally friendly LED spotlight units to be sunk into the new ceiling, funded by the club.

Work underway, showing the contrast and improvement in appearance and ambience.

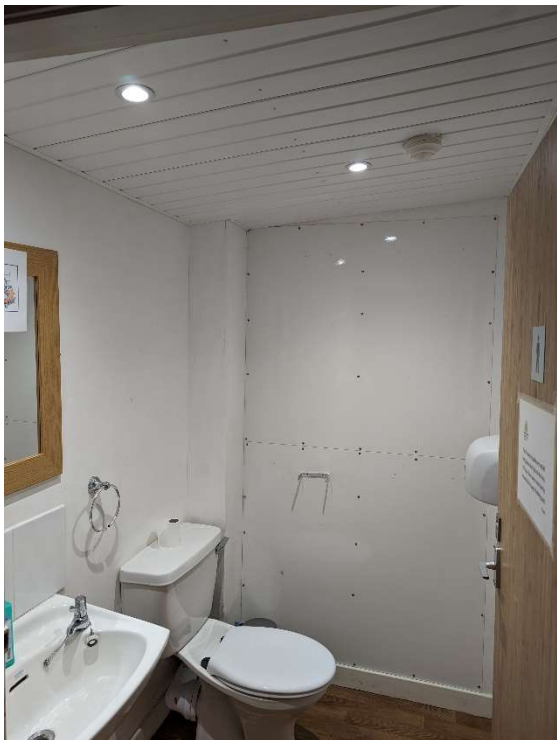

The completed ceiling with new lighting installed.

We will be upgrading the furniture and fittings, hopefully before the start of the season in April to make the area a more inviting area all the teams and supporters who use the facilities through the year.

The grant also paid for the two toilet ceilings and the kitchen ceiling to receive the same treatment.

Our thanks to the Parish Council for their financial help in making these improvements possible, and we would welcome council members to visit us during the season to appreciate the difference this has made to the club.
