

ST MARY THE VIRGIN CHURCH, HONLEY

GRANT – REFURBISHMENT OF CHURCH CLOCK

The Parochial Church Council are pleased to report that the work on the Church is now complete and, in particular, the Clock is back to its beautiful best.

All four faces of the Clock have been completely refurbished and are looking wonderful.

The contractor found that some of the wooden support for the mechanism holding the dials was rotten, and this has been replaced by a metal bracket.

We are grateful for the valuable contribution from the Holme Valley Parish Council towards the cost of the work. In total, the cost was £10,269 (including VAT – which is reclaimable). The balance was met by via an appeal to the community and from our existing reserves.

We are confident that the Clock is now in a condition to serve the community of Honley for many generations to come.
